

## Proportional Giving Chart

St. John's Episcopal Church  
Lancaster, Pennsylvania

Stewardship is a lifelong journey, and a decision to tithe can be joyful part of that journey. Here is a suggestion for getting started:

1. Find the current percent of income that you are giving to the church:
  - Find your approximate annual income and move across the row to find your current annual giving amount.
  - The number at the top of that column is your current percent of giving.

*Of course, you could just use a calculator to divide your annual giving by your annual income and move the decimal point two places to the right.*

Annual Income	Annual Giving Percentage											
	1%	2%	3%	4%	5%	6%	7%	8%	9%	10%	12%	15%

<b>200,000</b>	2,000	4,000	6,000	8,000	10,000	12,000	14,000	16,000	18,000	20,000	24,000	30,000

2. Consider what gift (or percent of your income) would bring you joy. Can you take a first step towards that goal this year?

Some people have suggested that we should "give until it hurts," but the practice of stewardship suggests that we "give because it feels good."
